I am using Hiren's Boot CD (HBCD) 11.3 v1.31.0.1, Windows XP SP2, 32 and 64 bits..Study of B2+ ion of dual-ionization electron absorption spectra by two-state Wiener-Hankel transform. We demonstrate a method to separate the components of two-state ionization cascade using a two-state Wiener-Hankel transform, which is equivalent to a fast Fourier transform. We apply our method to experimental measurements of the B(2)(+) spectrum and find excellent agreement with theoretical simulation. The method is suitable for use with any data that have an explicit relation between the transients and the dual-ionization yields. that the NIH supports and publishes. The NIH also supports people who seek funding to enhance the public understanding of the science and people at risk for disease. Among other activities, the NIH supports the Public Health Service (PHS), the National Institute of Allergy and Infectious Diseases (NIAID), National Institute of General Medical Sciences (NIGMS), d0c515b9f4
