Reborn Tribe is a simulation game. As a part-time indie game developer, this game only contains a few basic contents. After that, I will design the game in a step by step way. The game is still under development. Therefore, there might be a few bugs. If you are a happy player, you can be one of our cheerleaders! If you are interested in more details about this game, you can check the information below. 【Reborn Tribe】 is the story of humanity in the ancient time 【Reborn Tribe】 is the story of humanity in the ancient time Each tribe is separated in the early time and established its own civilization. But the God of

Darkness, who lives in the space, attacks the Lifthrasir in the ancient time. Therefore, the Lifthrasir disappeared, and the survivors are taken to the new world by the unknown magical power. 【Reborn Tribe】 is the story of humanity in the ancient time Team Leadership: He is the manager of this project, the grandfather of Luper and the leader of the Lif. 【Reborn Tribe】 is the story of humanity in the ancient time Artist: He is the person who draw cute cows, chickens, etc. 【Reborn Tribe】 is the story of humanity in the ancient time Illustrator: He is the person who draw landscapes and monsters. 【Reborn Tribe】 is the story of humanity in the ancient time Programmer: He made the game program. You can learn from him. 【Reborn Tribe】 is the story of humanity in the ancient time [Unity] Building a clean and simple UI Hello, I have been developing games and game engines for over 20 years, and Unity has always been one of my favorites. It has a very nice and clean API for rendering 3D content and for controller and user interface programming. It supports Mecanim animation and smoothing. It also has a very large user base, which is always a good indicator for being a robust engine. One problem I found was the built in scene view and tools, they all look pretty outdated and out of date. It appears that Unity is moving away from the good, simple and clean stuff they used to do in the early days and going in the direction of bloated, ugly and hard to use stuff. I made an attempt to clean up the UI even though I am not very happy
