## Gilde 2 Renaissance Download WORKI

After several years of development, the whole world of the guild Gilde 2 Renaissance has finally arrived, with its glorious catalogue of 5 different eras. All eras of the Guild 2 Renaissance are characterized by the technologies and economy that are available. The eras are:

- Renaissance: the beginnings of economic development, when a new order begins to be established. It is a time when everything is new, arts and sciences are carried out, and business becomes profitable for the first time in history.
- The Gothic Era: the Gothic Era begins after the Renaissance, which began as a golden age. It is characterized by the foundations of the Renaissance, but also by a renaissance in the arts. This is a time when everything was still new.
- The Renaissance: the Renaissance is the golden age of the era. A highly developed culture is established. The arts and sciences show their full capabilities. The new developments in the economy allow a thriving business.
- Our Era: after the Renaissance came the Age of Reason. Business begins to stagnate, as people do not care about anything but their own way of life. In contrast to the golden age of the Renaissance, which was no longer better than the rest of the world, is this era in which the average consumer, businessman and craftsman are not involved in the development of culture and science. At the top of the pile is the guild, whose only concern is to keep power and wealth. For those who have been followers of the development of the last few years, there are a few changes. We are now ready to release the most extensive era ever as a standalone game. Guild 2 Renaissance is an old style, real-time, simulation game with many roles and features. Although it is at the beginning, this game is still in development and already contains many useful features. I spent hundreds of hours in developing this title. Together with other developers I work on the level of quality. The result: Guild 2 Renaissance will be the most complete and accurate simulation game at any time. Wherever you go in the world, you find "the art of making" it - the role of the art of illumination.
