
Borderlands Patch 1.4.1 No Cd Crack Free

this weeks patch adds a new update system to vault hunters, legends of the unknown, which updates the team around you and lets you handle them yourself. for example, you can assign a specific weapon type to each team member, choose special abilities for each, and choose their loadouts. this system gives you control over your team and helps prevent them from duplicating and accidentally losing health. two additional new legendary item drops were identified by the development team so new legendary gear can be found when shooting legendary targets, but you cant claim them until theyre earned in the ranks. finally, the boundary issues modifier was pulled out of the game for now and will be re-introduced next week. the stated goal for this temporary measure was to address community concerns related to the issue and its impact on play balance. for more information about this week`s hotfixes and new content coming your way in future patches, click here to watch our trailer or visit: support.2k.com. every little bit counts, so be sure to report any issues you encounter to us by clicking here. after seeing the positive reaction from community and developers to the community buffs, we will be including permanent versions on pc and ps4 in the next patch. on february 19th, everyone will be receiving a boost in all of their stats. youll be able to get these buffs by opening your companion app or companion console window on the galaxy tab or by launching the bundle app in the ps4 store. if you have any feedback or questions about the update system, the boundary issues modifier, or anything else, please send them to support.2k.com and keep an eye out for more information as we continue to add features to borderlands 3. you can also join in on the conversation through the official forums on borderlands.com, across social media platforms, or find us on twitter.

Borderlands Patch 1.4.1 No Cd Crack

we have noticed that some of the more popular guardian rank modifiers continue to be valuable in mayhem. as a result, we have adjusted several modifiers and added additional passives that will continue to increase your value when in mayhem. in addition to the above changes, we have fixed several reported issues. see full list of fixes below.

amaras: fixed an issue preventing certain gear from stacking with damage bonuses, damage bonus scales, and passive damage bonuses.

fixed several issues with gear sickness and various health-related passives.

iron bear: increased base scaling, focused offensives bonus, and additional bonuses added by passives and augments.

fixed an issue preventing iron bear from overhealing when out of combat.

fl4k pets: fixed an issue preventing certain pets from scaling with damage bonuses.

firetrap: added a new passive modifier, blessed and harmonious, which increases firetrap's fire charge and provides a 100% chance of not overhealing when a fire traps overheals. added additional passives that provide 100% fire charge passive bonuses.

krieg: fixed an issue with some of his passives that prevented them from reducing the cooldown of fire traps.

krieg: reduced the base cooldown of his fire traps by 2s. we also noticed an error that caused a black screen for players with certain graphics cards. as a result of this error, some players couldnt access the hotfix menu when beginning a new game. we have fixed this issue, and it should go live with the update today.
