## What's New In?

Using the Simply XPMC Induztry skin for Trillian, you'll have a close to Windows XP look, and it will make all your work easier than ever. With this skin, you'll be able to apply different styles, colours and effects to each of the various sections of the application. This provides a lot of customization to the look of Trillian, making it ideal for both newbies and experienced users. Although Trillian can still be installed on Windows XP, it's a very good idea to update to Windows 7 or Windows Vista, since this skin won't be compatible with them. This skin is a Trillian add-on (like all skins) and has to be installed manually. First you'll need to download the Simply XPMC Induztry skin on the official Trillian website, and then you'll have to launch the installer, which will automatically download the skins files. The installation can take anywhere from a few minutes to a few hours, depending on your internet connection. Please keep in mind that the installers for this skin come in two types: one for the free and one for the pro version. To install the free version, you only need to install the main files, while to install the pro version you'll have to install the main files and the skins folders. After installing, it's important to point your browser to the Trillian's settings to point to the web interface where you'll find the skins' configuration. The easiest way to do that is to log out, and then select the "My skin" section from the dropdown menu in the upper-left corner of Trillian's main window, and then find the skin you installed (the skins are divided by skin category, so find the skin in the "Default category"). You'll be able to apply different settings to the skins you installed. Below are the skins for Trillian available for download. You can also find more skins for Trillian on the official website. Installer For Free Version (64-bit): 1. Click here to download the installer, which will automatically download the skins and the MUI file. 2. On the first screen of the installer, choose the version of Trillian you're using (free or pro) and then press the "Next" button. 3. The installer will automatically download the main files. Press "Next" to continue. 4. The installer will automatically download the skin files. Press "Next" to continue. 5. The installer will automatically download the MUI file. Press "Next" to continue. 6. The installer will automatically install the main files and the skins. Press "Finish" to continue. 7. After the installation finishes, close the Trillian installer and restart the application. 8. Point your browser to the Trillian's settings. You should see the "My skin" section in the upper-left corner. If the skin is installed
